DUST MOP TREATMENT OIL EMULSION 435

CONTAINS NO CHLORINATED SOLVENTS

The simple one-step solution to ensure maximum dust absorption on dust mops and cloths. Sprays as a quick breaking, penetrating foam that deposits magnetic dust attractant deep into rags, cloth, mops and brooms enabling immediate use. Dust mop treatment converts dust into heavy lint that is easily picked up and keeps it from floating through the air. Contains a self-indicating foam that shows when mop is saturated and will no longer absorb dust, dirt or lint. *Treated mops or cloths can be shaken out or washed in sink or washing machine. Leaves the area with a fresh citrus aroma.

FEATURES

- Magnetic Dust Attraction
