ROOF PATCH and LEAK SEALER

657

Contains NO Chlorinated Solvents • NO 1,1,1-Trichloroethane • NO Hexane • NO CFC's
 ROOF PATCH and LEAK SEALER is a portable, easy to use, thick black aerosol coating that seals water leaks and fills cracks and voids on most roofing surfaces. An extremely durable sealer and coating that will not sag or drip in summer heat or crack or peel in winter cold. Sprays as a liquid, flows into low spots, cracks and crevices then dries to a thick, black rubberized coating. Great for asphalt and fiberglass shingles, built-up tar and gravel, 1 ply rubberized and granulated roofs, mobile home and RV roofs, flashings around chimneys, vents and skylights. Helps seal concrete foundations and basements from water seepage and hydrostatic pressure.

FEATURES

- Quickly seals leaks
- Unaffected by weather
- Seals out the elements

FOR USE ON

- Asphalt
- Composition
- Tile, Slate, Felt
- Wood and Metal Roofing Materials
- Gutters and Downspouts
